EDUCATION

B.Tech in Computer Science, Meadow Institute of Technology, August 2023 to May 2027 (expected graduation).

SKILLS

React, TypeScript, JavaScript, HTML, CSS, Git, Vitest.

PROJECTS

Campus Room Booker (January 2026 to April 2026): Built room-availability and booking-form screens using React and TypeScript. Reduced booking time by 40%.

Implemented client-side form validation, loading indicators, and inline error messages; connected screens to REST endpoints for listing rooms and creating booking requests.

Authored 18 Vitest unit tests for booking form validation and error states; added accessible features including keyboard focus states and input labels.

Utilized Git branches and pull requests for collaborative development within a three-person project group.

COURSEWORK

Completed an introductory cloud foundations course (Meadow Learning Club, June 2026).
