EDUCATION

B.Tech in Computer Science, Meadow Institute of Technology (August 2023 to May 2027, expected graduation).

SKILLS

React, TypeScript, JavaScript, HTML, CSS, Git, Vitest.

PROJECTS

Campus Room Booker (January 2026 to April 2026): Built room-availability and booking-form screens using React and TypeScript.

Implemented client-side form validation, loading indicators, and inline error messages; connected screens to REST endpoints for listing rooms and creating booking requests.

Authored 18 Vitest unit tests for booking form validation and error states; added accessible keyboard focus states, input labels, and error text, manually verifying keyboard flow.

Utilized Git branches and pull requests for collaborative development on the student prototype.

COURSEWORK

Completed introductory cloud foundations course (Meadow Learning Club, June 2026).
