EDUCATION

B.Tech in Computer Science, Meadow Institute of Technology (August 2023 to May 2027, expected graduation).

SKILLS

React, TypeScript, JavaScript, HTML, CSS, Git, Vitest.

PROJECTS

Campus Room Booker (January 2026 to April 2026): Built room-availability and booking-form screens using React and TypeScript. Implemented client-side form validation, loading indicators, and inline error messages. Connected interfaces to REST endpoints for listing rooms and creating booking requests. Authored 18 Vitest unit tests for validation and error states. Added accessible keyboard focus states and labels. Used Git branches and pull requests for collaboration.

COURSEWORK

Completed an introductory cloud foundations course (June 2026) via Meadow Learning Club, covering cloud vocabulary, shared responsibility, and basic service categories.
