

Mira Rao

mira@example.com

SUMMARY

Computer Science student with experience developing frontend interfaces using React and TypeScript. Proficient in integrating REST APIs, implementing accessible form components, and maintaining code quality through automated unit testing and collaborative Git workflows.

EDUCATION

B.Tech in Computer Science, Meadow Institute of Technology (August 2023 – May 2027).

SKILLS

Languages & Frameworks: React, TypeScript, JavaScript, HTML, CSS. Tools & Testing: Git, Vitest.

PROJECTS

Campus Room Booker (January 2026 – April 2026): Built room-availability and booking-form screens using React and TypeScript. Implemented client-side form validation, loading indicators, and error handling for REST API responses. Authored 18 Vitest unit tests for validation and error states. Enhanced accessibility by adding keyboard focus states, input labels, and accessible error text. Utilized Git branches and pull requests for collaborative development.
